

VITAL TEST TO
COME MONDAY.VALIDITY OF OLIVER GRAND
JURY TO BE ARGUED THEN.

If Supreme Court Issues Alternative
With All Bribery Cases Prosecutions
Will Be Stopped Till Final Settlement
of Question as to Legality of
Indictments.

BY THE ASSOCIATED PRESS—A.M.

SAN FRANCISCO, Aug. 9.—Responding to an inquiry, Chief Justice Beatty of the Supreme Court today informed the Associated Press that the action will be taken by the Supreme Court before Monday in the various applications for writs of prohibition restraining the judges of the Superior Court from proceeding with the trial of several corporation officials charged by the Oliver grand jury with the crime of bribery.

Judge Beatty intimated strongly that on Monday these applications will be taken up for consideration in open court and that before that time they will not be considered in chambers, some of the justices being out of town.

Should the Supreme Court issue an alternative writ, all the bribery cases would be stopped until the final determination of the applications which were made mainly on the ground that the Supreme Court is without jurisdiction to try the cases for the reason that the Oliver grand jury is an illegal body and hence the indictments returned by it are invalid.

Should the writ be therefor made permanent, a new grand jury would have to be organized and all the work of indictment done over again.

In the famous Brunner case, whose decision was written by Associate Justice MacFarland and concurred in by three of the other justices, and dissented from by three, it was held by the Supreme Court that the filing of invalid indictments in court does not confer jurisdiction upon that court to try them, when the grand jury itself is not testily. Whether this decision will be followed by the majority of the seven justices in the present matter is the cause of much speculation among lawyers throughout the State.

In Department Eleven of the Superior Court today, Attorney T. C. Coonan interposed a formal objection to any further proceedings by Judge Lawlor in the impending trial of Vice-President Louis Glass of the Pacific States Telephone and Telegraph Company on the indictment charging him with the bribery of Supervisor Thomas F. Loneragan. The objection was based on lack of jurisdiction.

Judge Lawlor set the hearing for argument at 10 o'clock Monday morning.

In Judge Graham's department of the Superior Court, the defense was granted a continuance until next Wednesday in the matter of the amendment of the court minutes with respect to the Oliver grand jury. Upon the determination of this amendment rests in part the disposition of the case.

Judge Lawlor's department of motion to set aside indictments against officials of the telephone company, the United Railroads and the common carrier.

**CAR MAN IS SHOT
BY AN INSPECTOR.**

BY THE ASSOCIATED PRESS—A.M.

SAN FRANCISCO, Aug. 9.—W. H. Baker, a member of the Carman's Union, was shot in the leg by Inspector Beauregard Young of the United Railroads this morning. He was taken to the Harbor Hospital where the wound was found to be superficial. Young was arrested and was later released on \$5000 bail furnished by the company.

Young asserts that Baker, who has been driving a bus since the strike, called him a vile name as he passed him at the corner of Third and Market streets, where Young is stationed. He says he told Baker he had a mind to arrest him for using such language, whereupon Baker threw a brick at him and ran and then received the bullet.

Baker's account is that he had driven down Market street with a load of passengers and that, after discharging them at Third street, he got down from his wagon and stood at the rear talking to a friend, when a short time later called his attention to the inspector who was running toward them and yelling "Baker, you mounted and started to drive away when his brakes caught and he had to get down again high price. Then he saw while he was on the ground he saw Young advancing with the pistol in his hand, and he picked up a brick and threw it, missing Young and hitting a bystander.

**SUIT TO STOP RUEF'S
BILLS IS WITHDRAWN.**

BY THE ASSOCIATED PRESS—A.M.

SAN FRANCISCO, Aug. 9.—Attorney L. W. Lovey has withdrawn the suit brought by J. P. Murphy to enjoin the payment of Elmer Biggy's expense bills from the Superior Court and will ask the Court of Appeals to set him a hearing.

When the complaint was presented to Presiding Judge Coffey, it was assigned to Judge Dunn for determination.

WOULD BAN FEDERAL COURTS.

Missouri Democratic Leader Invents
Against Interference of United
States Judges.

BY THE ASSOCIATED PRESS—A.M.

ST. LOUIS (Mo.), Aug. 9.—[Exclusive Dispatch.] "Federal district courts should be abolished, as they have served their purpose," said John T. Barker, a Missouri Democratic leader, in an address here today. Mr. Barker, who represented Macon county in the last General Assembly, spoke at the old settler's reunion and he discussed the "Federal interference with State rights."

Mr. Barker cited the Maximum Freight Rate Law passed in 1920 which reduced the freight rates about 15 per cent. The operation of this law was enjoined by Federal judges.

A striking illustration of the power usurped by the Federal court was shown in North Carolina recently. A railroad employee, having been convicted of a criminal offense by a jury in a State court, was serving a term in the State penitentiary when the Federal court issued a writ of habeas corpus and the sentence of the State court set aside.

INJURED ANSWERING ALARM.

EVERETT (Wash.) Aug. 9.—Fire Chief Sam Graham today reported that a fire broke out at the Everett telephone exchange this morning. The fire was caused by a short circuit in the wiring and the fire department was called. The fire was quickly extinguished and no one was injured.

TRAIN WRECKING
ATTEMPT FALLS.PLOT Laid TO STRIKERS FOILED
IN NICK OF TIME.

Strike of Denver Switchmen for
Two Cents an Hour Increases Causes
Damage of Thousands and Throws
Hundreds of Miners Out of Work.
Freight Facilities Crippled.

BY THE ASSOCIATED PRESS—A.M.

DENVER, Aug. 9.—[Exclusive Dispatch.] But for the north-bound passenger train of twelve cars being twenty minutes late, an attempt to ditch the flyer would have succeeded at Fort Collins today. A switch was tampered with, supposedly by striking trainmen, but the plot was discovered by an alert track walker in the nick of time.

A general strike of all the switchmen on the Denver and Rio Grande Railroad is imminent, though none has yet been called. The General Grievance Committee of the Trainmen Union met in this city today.

The strike of the switchmen in the Denver yards, inaugurated July 19, has resulted in the closing of freight traffic on the Colorado and Southern, and has seriously crippled the other lines by congesting their business.

The walkout for two cents an hour increase has cost this section thousands of dollars, thrown many miners out of work and caused a coal shortage that may result in the closing of the Colorado Fuel and Iron Company's immense factories.

Indignation against the union for its disregard for the rights of the general public has led to the determination to crush the union brotherhoods for all time.

INDIANS LAND SWINDLERS.

Restrictions in Creek Nation Expire
and Willy Redskins Sell Property
for Much Above Value.

BY THE ASSOCIATED PRESS—A.M.

MUSKOGEE (Okla.) Aug. 9.—[Exclusive Dispatch.] Land buying broke loose with a vengeance in the Creek Nation today. The restrictions expired at midnight last night. Eager land seekers came from all over the country to the Creek Nation today.

It was claimed at one of the banks here today, that some of the city Indians are selling their land for five times its value, and that there is much crooked work going on.

An agent for several big land companies made the statement that by tomorrow morning actually every acre of the higher priced land in the Creek Nation would have been sold to white men by mixed-blood Indians, all to the detriment of the Indians.

DISCHARGING CHEAP LABOR.

Railroad Companies Put Ban on Greeks
and Italians and Pay More for
Americans and Irishmen.

BY THE ASSOCIATED PRESS—A.M.

OMAHA (Nebr.) Aug. 9.—[Exclusive Dispatch.] Western railway companies are repeatedly discharging from their service, cheap foreign laborers and enjoining higher prices for the more energetic men to do the work which has been done by Greeks, Italians and other cheap labor.

Hundreds of Greeks and Italians have been discharged recently and it is now practically impossible for them to get employment on any of the western roads. Employment agencies here, and in other cities, have been notified by the railroad companies that they will not employ Greeks or Italians for any sort of work.

The companies are employing Americans and Irishmen so far as possible. They say they do a great deal more and better work than Greeks and Italians. Thousands of Greeks and Italians are now out of employment in the West as a result of this new policy of the railroads.

IMMEDIATE TRIAL FOR MAGILLS.

Court Grants Petition for Calling of
Case of Barker and Wife Accused
of Murder.

BY THE ASSOCIATED PRESS—A.M.

ALTON (Ill.) Aug. 9.—Circuit Judge Cochran today allowed a petition for the immediate trial of Fred Magill and his wife, Fay Graham Magill, who are under indictment charging the murder of Edward Bremer.

The Magills are at liberty on \$5000 bonds pending trial.

TO FIGHT FOR GOVERNORSHIP.

E. F. Morton and Earl Brewer Received
Highest Vote in Mississippi
Primary.

BY THE ASSOCIATED PRESS—A.M.

JACKSON (Miss.) Aug. 9.—In the gubernatorial contest, E. F. Morton and Earl Brewer were declared as the candidates receiving the highest vote and will contest for the governorship to be held August 22.

For Lieutenant-Governor, Luther Marshall and Wiley N. Nash will enter the second primary and for Insurance Commissioner, T. M. Henry and W. Miller.

"Easy Money."

Ten thousand dollars will be distributed by The Times at its office, commencing next Monday, to the first person who can furnish reliable information as to the whereabouts of the late J. Edgar Hoover.

STANDARD SECURES
WRIT OF ERROR.

BY THE ASSOCIATED PRESS—P.M.

CHICAGO, Aug. 9.—The attorneys of the Standard Oil Company today filed the company's assignment of assessor in the United States District Court. They then went before Judge Grosscup in the United States Circuit Court of Appeals and made application for a writ of error and superseas.

The Standard Oil Company's contention was that the assessor's valuation of the company's property was so grossly in error that the supersedeas would be granted upon a bond no larger than sufficient to cover the costs. It was claimed that the assessor's valuation was \$2,500,000 in excess of the actual value.

The assignment of assessor was filed in the United States District Court. The company's attorneys are required to give the assessor a bond of \$2,500,000 to cover the costs of the writ of error.

**EL PASO STRIKE IS
AFFECTING MEXICO.**

BY THE ASSOCIATED PRESS—A.M.

EL PASO (Tex.) Aug. 9.—[Exclusive Dispatch.] All telegraph communication between the United States and Mexico through El Paso is tied up as a result of the Western Union strike here, because the junction operators were among those who went out this afternoon.

El Paso is an important transfer point between the Federal Telegraph Company of Mexico and the Western Union, and the number of important messages tied up is increasing hourly.

Tonight two women, the wire chief, one non-union operator and the manager are working in the local Western Union office. The rest of the employees are on strike.

**IRELAND WOULD MAKE
TRUST PAY INSTANTLY.**

BY THE ASSOCIATED PRESS—A.M.

NEW YORK, Aug. 9.—The Hon. Lord Chief Justice of Ireland, Baron Finlay, who has arrived here for a visit to the Adirondacks and Canada, in speaking of the big Standard Oil Company fine recently imposed, said:

"If the Standard Oil fine had been imposed in Ireland, the Standard Oil Company would either have to pay the \$250,000 fine at once or if they appeal, they would collect the fine on a judgment immediately."

"We would hardly tarry as long as they do in the American courts before imposing the Standard Oil Company fine."

SHIPS "HOODOOED."

PORTLAND, Aug. 9.—[Exclusive Dispatch.] That there is a "hoo-doo" hanging over the Harriman coastwise steamers is getting to be the belief of sailors and passengers alike. Following the sinking of the Columbia, and the collision of the City of Portland, the Standard Oil Company's steamer Breakwater, an accident to the steamer Breakwater, the Harriman coastwise steamers are being "hoo-dooed."

While the Breakwater was being repaired at Astoria this morning from Coast Bay, the Breakwater was rammed by the steamer Breakwater, and she will now have to be inspected before she again goes to sea.

His Street.

"Will you let me off at my street when you come to it?" said the fussy man who boarded a car downtown during the rush hour.

"Sure! I suppose your name's on it in big letters," said the conductor, giving the motorman two bells while a woman had one foot on the step.—[Chicago Journal.]

"PLAGUE" IS SCARLET FEVER.

PHOENIX (Ariz.) Aug. 9.—The reported epidemic of plague in Wickenburg, six miles from here, proves to be scarlet fever, brought there from a bar by a mining camp. There have been several deaths in Wickenburg recently, but physicians say they resulted from other causes, though several children are ill of scarlet fever in a severe form.

MUSIC AND MEALS.

A Movement in England to Do Away With the Combination.

There is a revolt in England against the practice of having music with meals, and one of the leading London hotels has given it up, much to the satisfaction of the guests. A New York Times correspondent writes that Dr. C. W. Saleeby, a well-known writer on hygiene, says:

"Of course, faint music is not as bad as the loud strains we commonly suffer when we dine out. Like any evil, less there is of it, the better, but to do away with it altogether would be best of all."

Some hygienists recommend that one should eat alone, and in silence. The editor does not agree with this. The carnivores eat alone, and growl when any living thing approaches. The herbivores eat in company. Don't be a hyena. Bright, cheerful conversation and laughter help the digestion. It is best to eat with a companion. Don't be a hyena. Bright, cheerful conversation and laughter help the digestion.

GANS-BURNS GO ON AGAIN.

Pugs Agree on New Conditions for a Fight.

Scrap Put Off One Week to Accommodate Burns.

Weight Limit Is Increased Two Pounds.

The Joe Gans-Jimmy Burns fight, that was called off Wednesday by Manager McCarey because a number of physicians said Burns was not in shape, was called on again yesterday afternoon at a conference between the fighters, their trainers, McCarey, Referee Jim Jeffries and an audience of newspaper men.

Instead of the date being August 16 and the weight 135 pounds ring-side, the new arrangement is that the date will be August 23 and the weight 137 pounds ring-side. The match has been postponed one week as a concession to Burns, who wants to prove to the sports of Los Angeles that he is not trying to crawl out of a fight with Jimmy Burns and he further agreed that the weight shall be 135 pounds.

The publication yesterday morning that Gans had been visited by Willie Britz, created somewhat of a stir in fight circles and the remarks made about Gans worked him up so that he was ready and willing to make concessions in order to show that he was a real live one that meant business. As Jimmy Burns was more than anxious for the fight with Gans, it was very easy for them to get together in a conference, and this was held yesterday afternoon in McCarey's office.

At this meeting there were Gans and his trainer, Keefe; Jimmy Burns and his trainer, Lewis; Referee Jim Jeffries; N. Oswald and Manager McCarey of the Pacific Athletic Club, papers, reporters from the various fight circles and a number of other men, and as Burns stated that he would go into good condition in two weeks, the fight was postponed. The only difference of opinion was that Burns wanted the weight 135 pounds at 4 o'clock on the evening of the fight and Gans held out for 137 pounds. As there was no chance for them to agree, the fight was suggested that the weight be 135 pounds, and this satisfied both parties. The fight was agreed to stand and to be changed so as to conform to the new agreement.

A dispatch was sent to Selig, Gans and he will be here this morning to announce him that the match is on. Gans will continue his training at Arcadia, and Jimmy Burns will go to Santa Monica this morning to do his work there. Instead of the East Side club, Tommy Burns will be down next week. Gans says he is willing to concede the two pounds weight because he believes there is no real live, weight between 135 and 137 pounds, who can defeat him.

BRITZ DENIES STORY.
DID NOT ATTEMPT BURNING.
[BY THE ASSOCIATED PRESS.—P.M.]
SAN FRANCISCO, Aug. 9.—Willie Britz, brother and manager of Jimmy Burns, in a statement today, denied the charge insinuated against him that he bribed Jimmy Burns to call off the scheduled twenty-round bout between him and the lightweight champion, Joe Gans, in Los Angeles. Britz's brother claims that his real purpose in going to Los Angeles was to investigate an offer of \$20,000 made by some searchlight promoter.

"It is true," says Britz, "that I did not want Gans to fight Burns, but a statement was made publicly by me immediately after Britz defeated Nelson, I gave out reasons why I should call off the Los Angeles match. The talk about my giving \$20,000 to Nelson is nonsense. I had to do to have the match called off to tell Gans that if he fought Burns before fighting Britz, he would take on some other man. Gans could easily see there was more money to be made by fighting Britz. I offered him \$1000 to refuse to fight Nelson and he is absurd."

Harness Horse Races.
The Los Angeles Driving Club will give its August matinee of races at Agricultural Park Saturday, August 10, and this time the card will be arranged especially for the better class of horses. Secretary Stewart expects some flyers here later on in the season and will in correspondence with J. C. Grubb, who has Redell (2:07 1/2) and G. Y. Gattum, who owns the pacer Audubon Boy (1:59 1/4). Both these races were here last winter and will doubtless return the coming winter.

SOUTH COAST YACHTS STAR NORTH TODAY.
SEVEN yachts will start from San Pedro at 10:30 this morning for the annual regatta of the South Coast Yacht Club. The regatta will be held in the Channel City next week they will participate in the Santa Barbara regatta. Chief L. owned by Walter Folson, probably will not be in the line-up when Stewart McLaughlin takes the starting gun. Folson was taken down with a serious fever Thursday night and the latest report was that he would not be able to sail his boat. The pick was to win the 125-mile ocean race.

Columbine, Monsoon, Minerva, Arrow, Enchantress, Osborne, and Shadow are the boats which will start in the cup race this morning. They will be accompanied by several of the cruising boats of the type the Argosine. The Detroit and Yankee will not sail.

For the regatta next week ten cups, representing a total value of \$100, have been offered by the clubs and business houses of Santa Barbara. Many prizes for the second and third place winners also have been offered. The visiting yachtsmen will be well entertained by the Santa Barbarans. The regatta will be held in the harbor with the water in the evenings will be a feature of the entertainment. As the race will be against adverse winds, it is not expected that the boats will finish before Sunday even-

INTERLEAGUE CRICKET.

Match Is to Be Played Between Zingari and Wanderers at Agricultural Park.

The third of the post interleague cricket matches will be played at Agricultural Park Sunday afternoon, when the Zingari will meet the Wanderers. Wickets will be pitched at 1:30 o'clock, stumps being drawn at 6 o'clock.

Following are the names of the players: Zingari—J. W. Heaven, G. F. Mills, A. N. Other, T. J. Bamford, C. E. Packard, J. T. Quilley, J. J. Roden, G. M. Salter, H. H. Friend, T. J. Haynes, J. McCombe and J. A. Dismun.

Wanderers—Tilton Steele, W. Kitchin, M. O. Mould, J. E. Heaven, C. J. Roden, F. Letten, C. Ramden, W. Whistler, Tomkins, R. M. Smith, C. L. Sweet and C. E. Shattuck.

The usual practice games are to be played Thursday and Friday afternoon, wickets being pitched at 2:30 o'clock.

AUTUMN SPORTS IN THE SCHOOLS.

COLLEGE AND PREP. BOYS PREPARE FOR OPENING.

Whittier College to Break Into Football Conference Circle—Intercollegiate and Rugby Styles of Play to Be Used in High School Leagues in South.

In a little more than a month the schools and colleges of Southern California will throw open their doors for the fall terms and football will become the absorbing topic of athletics. The colleges have all decided to play the intercollegiate game, but among the high schools the teams are divided, and some will play Rugby.

Pomona, U.S.C., Occidental, St. Vincent's, and Whittier are all preparing for a strenuous season. Three of these schools have secured new coaches, and rivalry between all of them is stronger than ever before. Whittier has secured very strong beretford in intercollegiate athletics, but expects to be a factor in deciding the football championship this year.

In the high school field, Hollywood and Santa Monica are the two main competitors with the older prep teams. In Los Angeles, one school, Polytechnic, will play Rugby, Harvard and A.A.S.S. will put on the old game, Hollywood, Pasadena, and Throop also expect to play the American football.

The Citrus League will play Rugby, and the championship will be between Pomona and Whittier. The Citrus League has withdrawn from the circle, owing to dimensions of the field, and the high schools in Los Angeles and vicinity, open for the fall term, and the coaches of these schools will have secured them at this date.

NEW COUNTRY CLUBHOUSE.
Santa Barbara Sportsmen Plan to Erect Fine Structure in Montecito Valley.
[SPECIAL CORRESPONDENCE OF THE TIMES.]
SANTA BARBARA, Aug. 9.—Work started this morning upon the foundations of a new building for the Santa Barbara Country Club. The building will be located upon a commanding hillside in Montecito Valley, four miles from the city, at the western end of the present club golf course. The building will cost \$250,000 and will be one of the prettiest buildings in this vicinity. The club will own the building.

The present quarters of the club have been leased from Barrett Fithian, who is in Europe. The new building is to be completed by January 1, when the new building is to be occupied. The new clubhouse is to be of the chalet type, one story and long. The front length is 160 feet. A garden will be laid out around the house by an eastern landscape artist.

TO BUILD CLUBHOUSE.
SANTA BARBARA, Aug. 9.—It is proposed by a number of the members of the Santa Barbara Polo Club that a three-room bungalow, in the nature of a clubhouse, be erected upon the organization's new polo field here. The project has taken definite form, and a large committee has been organized. The project has been started by R. Cameron Rogers heading the subscription list with \$100. President C. B. Hale, of the Santa Barbara Country Polo Club has added \$100. It is expected that within a few weeks the building will be in course of erection.

PLAN ILLUMINATION.
TO ILLUMINATE HARBOR.
[SPECIAL CORRESPONDENCE OF THE TIMES.]
SANTA BARBARA, Aug. 9.—In connection with the South Coast Yacht Club regatta to be held here on August 14, 15 and 16, an illumination of the harbor on the night of August 14 has been decided upon. Committees interested in the visit of the South Coast yacht club announced the plan after a meeting this morning.

The plan is to have the harbor illuminated for the affair and besides decorating the boats in the harbor with lights and the illumination of the bay with burning flares.

Motor boats will be used in handling the sailing craft, which, while illuminated, will not be under sail. The affair is proposed as an entertainment for the people of the city.

JOY TWIRLS LUCKY GAME.

Defeats Loolooos Handily by Close Score.

Randolph Pitches Well on First Appearance.

Allows Seals but Five Hits, but They Count.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, Aug. 9.—[Exclusive Dispatch.] Once again has Barney Joy shown that he has the makings of a first-class ball player, for when the little session between the Seals and the Angels was over at the ball park this afternoon, the lad from Aloha land had added another game to his credit.

Big Barney was in fact pretty near the whole show, yet Richard Williams, the blonde first sacker of Long's team, helped a whole lot, when he landed on one that was good for two bases and sent Spencer and Irwin over the plate in the fourth round.

The team behind Joy played baseball as it should be played and gave the big fellow perfect support, but with all this, Barney showed the crowd that he likes to win and that he will do so. He helped his team trim the Angels, for he has consented to do the honors again on Sunday afternoon. Being ladies' day, the fair sex were in a larger number than on any other occasion, partly because it was a dainty California day and partly because Barney was on the hill. Fire-eater Jack Gleason gave the kids much credit for the way things went on the previous day and passed a couple of hundred in again yesterday.

Who's got in on Los Angeles, and the answer, "Why Barney." Dillon sent his new man, Randolph, to the hill and he pitched a fairly good game of ball and the Seals were shy behind the recruit and those they made came after two men were out.

In the Angels' try at the bat in the first inning, Carlisle was hit for a single and crossed the plate when Randolph drove one out in the old game. Hollywood, Pasadena, and Throop also expect to play the American football.

Spencer, who had fanned the last four times he had gone to the plate, placed a beauty over second and went to it. It bag on Wheeler's sacrifice, while the Seals were in a jam and immediately stole second. Williams caught one fair and square and while the Seals were in a jam and immediately stole second.

LOS ANGELES.

A ATTORNEYS—

SEEK EDITOR'S ASSASSIN

Determined Efforts Being Made to Apprehend Man Who Slew Arkansas Newspaper Man.

[BY DIRECT WIRE TO THE TIMES.]
HELENA (Ark.) Aug. 9.—[Exclusive Dispatch.] The most determined and diligent effort ever made in this state to catch a criminal is now being made to apprehend the assassin of Editor M. Scott, who was killed last Sunday morning.

Four negroes were placed in the

testimonies for Policeman Ben Carruth. Preliminary hearing Monday. The two men were very close to the crime scene and when put in the "sawed box" with a negro woman named Lizzie Ellis, furnished information which the Chicago Police says is conclusive proof. No one saw Carruth shoot, and the nearest he can be brought to the crime is that he was with the victim about 15 minutes before he was killed. Carruth was the first on the scene after the tragedy.

He twice quarreled with him.

FACE CARRIED AWAY FOR TEETH SETTINGS.
Mayor Finds Ghastly Desecration in Fort Hill Cemetery.
Visits Vaults and Graves of Friends Long Dead and Sees Shocking Sight in Broken Carlisle Casket. Stands by Slab That Marked Resting-place of First Sweetheart—Conditions Afflicting.

INDIGNANT at the reports of desecration of graves of pioneers in Fort Hill Cemetery, Mayor Harper made a personal visit to the old burying ground back of the High School yesterday, and viewed some of the vaults where traces of vandalism are plainly visible.

"It is worse than I had imagined," said the Mayor, on his return to the City Hall. "I saw the mutilated skeleton of one whom I knew when a boy as one of the men of affairs of the city. The vault had been broken open, and the face bones carried away, presumably to gain possession of the diamond settings in the front teeth."

The Mayor spent an hour going over the old cemetery in company with Jerry Remsen, the guard employed by the city. Jerry has lived among the slabs of crumbling marble in the foul gases of decomposing human remains until his skin has assumed the hue and texture of dried parchment.

Bodies have been removed from about an acre of the old cemetery.

and that land is occupied by High School buildings. In the remaining four and one-half acres many bodies still lie. It is in this part of the cemetery that vandals have committed their crimes. In places the ground is torn up as though excavated for the foundations of buildings. The watchman said these excavations are trenches dug by treasure hunters, searching for valuables reported to have been buried with some of the bodies half a century ago.

BOOTS ON, AND EXTINGUISH.

The Mayor recognized one of the marble slabs lying by some of these desecrated graves the names of men and women who took a prominent part in the making of the early history of Los Angeles. In one inclosure are six crumbling tombstones bearing the name of Howard. They bear true testimony of the affluence of the Howards at the time this plot was used as a burying ground.

Hundreds of bodies have been removed from this old cemetery to be re-interred at Roseale, Evergreen and Hollywood, but no one has come to order the removal of the remains of the Howards.

"That family is extinct," said Watchman Remsen. "We have tried in vain to find some remaining relative to remove the bodies. There are none. I have been given to understand that all the men of the last generation died with their bodies on."

Taking the Mayor aside, Watchman Remsen confided to him that there is one vault which he would like to inspect in company with the Chief Executive. He said he has hesitated to visit it alone.

The Mayor accompanied him to a marble house built to the memory of Robert S. Carlisle. The entrance showed that it had been forced open; the original marble slab had been replaced by an iron grating.

"I knew Carlisle well," said the Mayor, as he stood before the old mausoleum, "when I was a boy he was one of the big men of the city. I remember him by the diamond settings in his teeth. He was killed in a gun fight on the steps of the Belle Union Hotel. It was afterward pulled down to make place for the St. Charles."

"Carlisle received a bullet in the heart. He fell to the ground, raised slightly, leveled his pistol against his arm and killed his assassin; then he dropped back dead."

FACE STOLEN FOR DIAMONDS.

Remsen confided to the Mayor that it was about the diamond settings that he desired to explain. He had found the leaden top of the casket broken open, and he wanted the Mayor to look inside and see whether the teeth have been carried away.

Unfastening the iron grating, he led the Mayor inside the vault. There, in four marble niches, repose four mouldering metal caskets. In the niches stand vases and marble statuary of rare and costly mold.

Glosterly the watchman stepped before one niche and pulled forth the metal casket. An opening had been cut in the leaden cover about a foot square.

Foul gases of the charnel house filled the vault. The watchman's voice should perceptibly as he whispered to the Mayor: "Look in there and see if the head is gone. I have always wanted to, but I dared not."

After a moment's hesitation the Mayor stepped forward and peered into the broken casket, while Jerry held a lighted match in the niche.

"The hair is there," said the Mayor, drawing back, "but the whole front part of the head has been carried away. The skeleton of the trunk and limbs remain undisturbed in the casket. In a fair state of preservation."

"It is just as I thought," muttered

DEATH FIGHT IN OIL TANK.
Carpenters Thrown Into Deep Black Mass Struggle Frantically.
Precipitated into a tank where the depth of crude oil was over their heads, four carpenters had a frantic swim for life yesterday. The accident occurred at Lubert, in the Whittier field. The reservoir belongs to the Murphy Oil Company. It is 140 by 480 feet in area, and holds 100,000 barrels.

The men were in a serious plight. They had to swim and kick their way to safety from a point near the center, and then, half exhausted and covered with the oil, climbed up the steep sides of the basin, six feet above the surface of the oil. John Thill, in particular, was trapped, as he is unable to swim, and had to support himself in the wreckage, and by kicking lustily, till his comrades could go to his aid.

The men were working on a staging over the oil, roofing the reservoir, when a girder broke, and they dropped into oil over their heads. As they went under, floundering and yelling, their saws, hammers and nails followed them, to rest at the bottom of the tank. After struggling frantically some time, the carpenters reached safety and rested on the top of the tank, while streams of oil ran from their hair, their fingers, their feet, and leaked from every pocket. Oliver Early, who had been nattily attired in white duck, presented a changed appearance.

The other two men were J. Williams and Frank Kooze.

ALL SKATING ON THIN ICE.
Girl's Gown Embarrasses the Court Officials.
Geographical Description Is Marvel of Its Owner.
Attorney Narrowly Escapes Brain Fever.

It required the services of Justice Frederickson, the expert evidence of Deputy District Attorney E. J. Fleming and of Prosecuting Attorney Eddie and the testimony of four detectives to decide the character of workmanship on a remarkable dress that found its way into the Police Court yesterday, after having traveled 4000 miles.

The dress, a beautiful specimen of the kind of stuff that delights the feminine heart, had been bought for a very pretty girl, who had never worn it, and who may not wear it until it has again crossed half the continent.

The trouble began Thursday morning in Judge Bordwell's department of the Superior Court, when Lulu Riley, charged with acting in a manner unbecoming her 16 years, promised to be good if the judge would let her go. She said she had a return ticket to her home in Kansas City and that she was anxious to go back to her mother. She was granted her freedom.

She owns a pretty pink suit that she wore in court, and the suit in dispute which Mrs. Storde, who keeps a rooming-house on Turner street, held because, as she alleged, the girl's rent was unpaid.

Yesterday the wheels of the law began to turn, and the dress got mixed up in the wheels. Miss Riley had sworn out a search warrant. Two detectives visited the rooming-house and captured the dress and took it to court, and there its history became known.

Yesterday it caused a busy half hour in court.

"I have here your Honor, a dress," said Attorney Fleming, holding up the garment.

"That's a skirt," corrected the court with rare powers of discernment.

"Ah, yes," sighed Fleming, "a skirt." He turned so that the stenographer might get a full description of the dress into the record.

"Yes, a skirt," repeated Fleming. Then he cleared his throat and plunged desperately into the description of it.

BAILEY TRIMMINGS.

"This skirt has a flounce and a dust ruffle. It is bounded on the north by an organ pipe fringe; on the south by shirring and jagged pleats; on the east by some lace embroidery and a peculiar and intricate form of vivisection which, in my opinion, bears the technical name of box pleats. On the west—" Here Fleming paused in dismay, his supply of technical terms exhausted, and he looked to the court for help.

"Bounded on the south by the skirt," said the court.

"What's the name of the jagged crank hanging under the cow catcher there?" suggested a detective.

"That's a mud guard," replied Attorney Eddie, whose recent connection with automobile cases has caused him to apply mechanical terms to many objects.

"Are you sure that description is technically correct?" asked Justice Frederickson, Fleming looked puzzled and examined the skirt.

"It's mighty near correct," responded the attorney, "I'm pretty sure about those flounces. I know flounces all right."

"Proceed," said the court.

With a groan of dismay, Fleming gathered up a mass of wiggly, filmy stuff that squirreled around in his hands, tangled up his fingers and slid up his sleeves.

"Go, what's this," he muttered as he got a strange hold on the thing, and with a clever jiu jitsu twist, chucked it into submission.

"That's a jacket," said the court.

Fleming looked it over and called in two detectives, one of whom is married.

"Taint," said Fleming, briefly, at the conclusion of the conference. "It's a waist."

Justice Frederickson looked dismayed and again ordered Fleming to proceed.

The attorney swallowed hard, and held up the gauzy stuff and looked it over. He twisted it first one way and then the other.

"I should say, or rather repeat, that this is a waist," said Fleming. "It is commonly worn by female persons who need to wear waists. As I was saying, the law of this land will not permit—"

"Here, get back to that dress," interrupted the court, and Fleming again took up the subject.

"This waist is a waist," he repeated, "and I'll be hanged if I know anything about its pedigree or its relations."

The court decided that the point was well taken. Then another garment perplexed everybody. "It's a three-piece suit," said Attorney Eddie.

The last garment was too small for

COASTED A SCORE O' MILES.
Novel Experience of Passengers on Covina Car After the Motor Broke Down.
The passengers on the last trolley car, which left Covina last night, at 10 o'clock, had the unique experience of coasting to Los Angeles. After the car had proceeded a few miles west of Covina, some part of the motor got out of order, and for a time it looked as though the passengers would either have to make themselves comfortable in the car for the night or walk to El Monte.

A happy thought, however, struck the conductor.

"Let her go, Bill," he shouted to the motorman, "it's down grade," then turning to the passengers he told them to hold on to their hats. And the car coasted all the way to Alhambra street, Los Angeles, it crossed the railroad tracks safely and then stopped, and as only thirty minutes behind schedule time. From that point the passengers walked home.

and too large for a handkerchief. It had sleeves that had gotten a good start in their youth, but had become stunted and had been chopped off short, like a horse with a docked tail. The front of the garment didn't button and both sides seemed to be anxious to get away from each other. The detectives took the strange garment out in the hall and looked it over, but finally gave up the problem in disgust.

At last Fleming got an idea. "It's a hopper suit," he said.

"A what," said the court, surprised at the new technical term.

"A hopper suit," repeated Fleming. "He means a jumper suit," said the owner of the dress from a place well back in the courtroom. "You see," she added, "this is a three-piece dress."

"I was right," interrupted Attorney Eddie.

"It has a skirt, a waist and a short-sleeved jacket and is called a jumper suit."

"Oh, said the court.

"Ain't it got a flounce?" asked Fleming anxiously.

There was the stillness of death in the room. The justice leaned forward, his eyes fixed intently on the girl. Fleming moistened his lips with his tongue. At last the silence was broken.

"It has," said the girl.

Fleming declined to file any briefs in the case and the dress was stored away with some Chinese weapons captured during the recent riot disturbance. The case may be tried later.

LOST ON CATALINA.
Whittier Cadets Escape from Island Camp, Wander on Hills, Suffer Hardships, Return Hungry.
Starving and worn out from tramping over the hills, two boys of the Whittier Reform School who escaped from Camp Whittier on Catalina Island and three days ago, returned yesterday afternoon. Seized with a desire for freedom, the 17-year-old lads decided to run away. They enjoyed a Robinson Crusoe life for three days, but they had no food and did not dare to go to Avalon for fear of discovery.

Clad in their cadet uniforms, which were torn and begrimed, the wanderers dragged themselves wearily into camp yesterday and gave themselves up. Search had been made in the hills since their departure. The boys had kept to the back country, and had traveled many miles. They had no plan of escape beyond enjoying freedom. Their desperate break was pathetic. They had no chance to get away. Once they were lost for a part of a day and a night.

That the boys endured many hardships was evident from their condition. Through the heavy brush which covers the hills on the opposite side of the island, the two youths had torn their way. They saw the sea on the other side, passed near the Lathmus and its settlement, but did not make themselves known. As far as they were concerned the island was uninhabited.

The Whittier boys are enjoying camp life on the beach about three miles north of Avalon. At Camp Whittier many of the regulations observed at the State School are relaxed. The boys took advantage of this leniency. Now they are sorry.

GIRLS FORCED TO DRINK.
Laborer Narrowly Escapes Horsewhipping for Giving Beer to Children. Fined in Court.
Charged with having given beer to two little girls, A. Contreras, a laborer, was arrested yesterday and fined \$25 by Justice Frederickson.

Before the man's arrest a crowd of enraged laborers chased him for several blocks, threatening to give him a horsewhipping. During the past month several reports have been received at the Police Station to the effect that little girls in the neighborhood of Eighth and Keller streets were being given intoxicating liquor by some one, but the police, until yesterday, were unable to find out who the guilty person was.

Yesterday Rebecca Sheehan, No. 834 Keller street, accompanied by her little friend, Ethel Ryan of No. 717 Howard street, went on an errand for her mother. On the way home, according to their statement, they were called over to a house in course of construction by Contreras. He had been eating his luncheon, and as a climax to the meal, imbibed part of the contents of a can of frothy stuff.

The man offered the girls a drink, saying that it was something good for them. The children hesitated, and Contreras forced the beverage upon them. Laborers who witnessed the incident threatened Contreras, who fled. He was captured by a patrolman and a warrant was sworn to by the mother of one of the little girls.

EJECTED FROM ITS OFFICES.
WESTERN INTRODUCING SOCIETY IS HOMELESS.
Expose Results in Prompt Action by Delta Building Management and Now Mrs. Randolph Must Seek New Quarters—"Dream of Love" Club Watched by Police.

The Western Introducing Society was turned out of its offices in the Delta building yesterday afternoon at 5 o'clock. The prompt action of the building management came just as the police were taking a hand in the affairs of Mrs. M. E. Randolph, the guiding star of the society. Mrs. Randolph has announced to members and others that she will open at once in a building on South Broadway. The police are hot on her trail.

Scenes shifted rapidly for the society yesterday. Callers were few and the reception-room was deserted. The tip had gone forth that the police were about to raid the place. Then came the summons from W. S. Walker, building manager, and Mrs. Randolph gave up a certain time to close up her "business affairs as far as the Delta building headquarters is concerned. The expensive furniture will be removed to the new quarters this morning.

The investigation began by Prosecutor E. J. Fleming brought quick results. His action resulted in the breaking up of the business of the introduction society. Fleming says he will keep after its promoters until they are forced to leave town.

Orders were given yesterday for the patrolling of the approaches to the offices of the society. When it was learned that young girls were being inveigled into joining the club the City Prosecutor decided to put a stop to the practice at once.

Patrolman Humphrey, acting under special orders from Capt. Auble, was chosen to make an investigation of the methods employed by the lady manager of the "dream of love" club. Humphrey made his report yesterday, and as a result Capt. Auble ordered that patrolmen keep watch outside the offices of the concern. The building management is refusing to keep such W. S. Avery, of the Delta building management, said last night with regard to the Western Introducing Society:

"We did not know what sort of people had rented our offices. Had we been given the faintest inkling that anything like that described in The Times was going on here we would have acted before. We gave the managers of the society notice to leave the building at once. They were given until 5 o'clock this afternoon. They left before that time. I do not want anybody to think that we encourage such people to rent our offices."

The police believe Mrs. Randolph will try to open headquarters in a smaller building. Patrolmen and plainclothes men are on the lookout for her scheme. It is the intention of the authorities to prevent any snare being laid for young men and silly girls who will be attracted by the offers of such people as the managers of the Western Introducing Society.

IRRIGATION RESERVOIR PROJECT.
Col. J. R. Wilbur of San Francisco, who has been in the city several days closing up the final details of a big irrigation reservoir project near Victorville, San Bernardino county, said yesterday that the details of the plan could not be given out until final papers were signed. Col. Wilbur was the promoter and organizer of the Modesto and Stanislaus Irrigation districts.

TO BE DEPORTED.
Following instructions received from Washington, 120 Japanese coolies, gathered from various parts of the Southwest, were sent to San Francisco, yesterday, to be deported. Five little brown men who were arrested several weeks ago at an Inglewood ranch were also sent north. The coolies were not confined in the County Jail, while here, but were guarded in a private residence.

FACE CARRIED AWAY FOR TEETH SETTINGS.
Mayor Finds Ghastly Desecration in Fort Hill Cemetery.
Visits Vaults and Graves of Friends Long Dead and Sees Shocking Sight in Broken Carlisle Casket. Stands by Slab That Marked Resting-place of First Sweetheart—Conditions Afflicting.

INDIGNANT at the reports of desecration of graves of pioneers in Fort Hill Cemetery, Mayor Harper made a personal visit to the old burying ground back of the High School yesterday, and viewed some of the vaults where traces of vandalism are plainly visible.

"It is worse than I had imagined," said the Mayor, on his return to the City Hall. "I saw the mutilated skeleton of one whom I knew when a boy as one of the men of affairs of the city. The vault had been broken open, and the face bones carried away, presumably to gain possession of the diamond settings in the front teeth."

The Mayor spent an hour going over the old cemetery in company with Jerry Remsen, the guard employed by the city. Jerry has lived among the slabs of crumbling marble in the foul gases of decomposing human remains until his skin has assumed the hue and texture of dried parchment.

Bodies have been removed from about an acre of the old cemetery.

death in gun fights. But it was an honor to die in one's boots.

"NAKED" AMONG GRAVES.
Numerous complaints have been made to the Mayor by physicians that it is a rash disregard for human life to permit the bodies to remain in the cemetery while it is surrounded and partly occupied by high school buildings.

No bodies have been buried in the cemetery for twenty years, but physicians assert that the atmosphere about the graves is still affected by the gases rising from the ground. Some go so far as to assert that it is almost impossible to preserve the health of children who sit all day in schools on the border of this old burial ground.

Watchman Remsen said that the high school pupils have been in the habit of playing in the park. "First the boys came," he said, "but soon they got to running about naked among the graves. Complaints were made and we had to stop that."

"The skunk," he exclaimed the Mayor in disgust, "I should think you would." "The girls came next," went on Remsen. "They brought an order from you. Pretty soon they were running around naked among the graves. The Mayor stopped again. 'What's that? Say that again!' He was visibly shocked at the offense that had been committed in his name."

"Well, they wore those little blouses and pants, you know," grudgingly explained the watchman. "But that's pretty near naked for a girl."

The Mayor gave a sigh of relief. "I guess it wasn't so very bad," he said. "They are not likely to desecrate any graves."

NO TREASURE THERE.
Watchman Remsen pointed to one little plot, containing two graves. "I have to watch that almost nightly," he said. "Somehow, the rumor has come forth that treasure is buried with the bodies in there."

Mayor Harper read the names on the two tombstones and smiled. "That's where the old man Wilson and his wife are buried. I remember when they died. It took the whole estate to pay for that lot and the stones. There isn't likely to be much treasure in the graves."

Remsen related a number of instances where two bodies have been found in one grave. In most cases these graves bear gruesome evidence of the religious fanaticism of fifty years ago. The Fort Hill Cemetery is a Protestant burying ground; the Catholic cemetery is on Buenavista street, half a mile away.

Sometimes in the early days a body would be buried in the Catholic burying ground. Some Protestant relative of the deceased would go in the night, remove the body and inter it on Fort Hill among those of the Protestant faith. In order that the act might not be revealed by the presence of a fresh grave, the body would be placed in a tomb where another lay buried.

Mayor Harper and Health Officer Powers are communicating with eastern health officers to get opinions from other cities as to whether the old burying ground is likely to breed disease. If the responses tend to show it is harmless, then the cemetery will be converted into a public park, with the old graves and monuments carefully preserved.

FOUR SCORE AND TWELVE.
Hale and hearty until almost the day of her death, Mrs. E. W. Rice of No. 1821 Cambria street, aged 82 years, was stricken two days ago, and died yesterday. She had been in Los Angeles for seven years, and at the time of her death was making her home with the family of W. J. Edinger. The body will be interred at Colfax, where the deceased has relatives. Old age seems to have been the only cause of the death of this venerable woman, who was born in the year of Napoleon's downfall, and just after the close of the war of 1812.

A.T.O. LUNCHEON.
Twenty members of the Alpha Tau Omega fraternity yesterday enjoyed an informal luncheon at the Federation Club. United States Circuit Judge Erskine M. Ross, one of the founders of the fraternity, was present. Plans were made for a banquet on September 11, the anniversary of the founding of the fraternity. A. A. McCord, a member of the high council, urged the organization of a Southern California association, and steps will be taken to secure charter. There are fifty members of the fraternity in this city and near-by towns.

Consumers should be on their guard against food articles that are made by ignorant persons in a haphazard manner, as they are likely to prove deleterious to health.

der the control of Harrison. Under the management of the paper his growth from a paper to issue of more than printing more columns than any other paper in the west of New York City. The Times has been the chief of importance in the Los Angeles is willing to take the Times has been the chief factor in the building up of

ARMY AND NAVY

Capt. Alfred A. Lee, on duty at the army hospital, says if the army hospital were a business, it would be a success. He says the army hospital is a success because it is a business. He says the army hospital is a success because it is a business. He says the army hospital is a success because it is a business.

EVERY-DAY LIFE IN LOS ANGELES—NO. 9.

The joy of camping out.

FESTIVAL TO BE
MEMORABLE ONE.

THE SONS WILL CELEBRATE
ADMISSION DAY.

Thousands to Assemble at San Ber-
nardo to Participate in Elaborate
Festivities—Fraternal Event of
Importance—All Southern
Clubs to Be Represented.

Thousands of Angelenos are ex-
pected to participate in the Native
Daughters Day Festival at San
Bernardo. This promises to be one
of the most elaborate fraternal cele-
brations ever held south of the Te-
hachas. A large proportion of the
clubs of Southern California, as
well as the Native Daughters, are ex-
pected to be present.

The committee of Ar-
rangements at San Bernardino has
been working hard for the festival, and it
is the hearty cooperation of
the towns is prepared to
welcome the visitors, and the
boys of the city to meet
them.

The festival will leave Los An-
geles at 8 o'clock on the morning of
the 11th, and the local company
will be accompanied by a band and drum
company. A committee of
arrangements will meet the train
at the depot, and the festival
will be a most successful one.

Like a Great Park

The Flower Garden of Southern California
The Show Place of Fine Homes and Wide Avenues

Great changes taking place at Beverly Hills.
Were you there a month ago?
Visit it again and see what thirty days of activity have done.
It's because home-builders are buying.
Beverly Hills is not to speculate with but for occupancy.
You who love nice surroundings, take a spin to Beverly Hills (at our
expense) and see the most picturesque and highly improved property in
Southern California.

WHICH? The City With its Noise, Dust and Slow Surface Cars or Beverly and the Subway

Yes, the subway is coming.
It means you can spin from Hill St. to Beverly Hills in just 15 minutes.
You can shut down your desk at 4 o'clock and at 4:17 you can breathe the pure air of
Beverly Hills and watch the gold fish in the water garden or stroll among the flower beds in
one of the four parks.
But it isn't necessary to wait for the subway. Three excellent car lines now run to
Beverly.
It isn't necessary to wait for neighbors, or for any improvements.
Beverly Hills will provide everything—gas, water, sewer, electricity, telephones.

Directors and Stockholders of Beverly

BRAKE FAILS AND CAR SHOOT DOWN CONEJO GRADE.

Arizona Party on Way to San Francisco Has Accident Which Results in Machine Being Turned Over, Does Little Harm to People in the Horrible Carriage.

OXNARD, Aug. 9.—C. M. Jones, an automobilist, traveling overland from Tucson, Ariz., to San Francisco, with five others, in a six-cylinder Stevens-Duryea, came near meeting death at the foot of the Conejo grade this morning.

His brake failed to work at a critical point in the descent. The driver had miscalculated the steepness of the incline, and the heavy car with six occupants was under a terrific headway when it was discovered that the brake was not in proper order.

Despite all the driver could do the big car went down the grade at record speed, making one of the sharpest turns at the bottom margin. Near the bottom of the grade the car was overturned and the occupants spilled down the mountain side.

Mrs. Jones was slightly injured, Miss Elizabeth Griffith, her sister, and two others, George and Charles, were absolutely unscathed. Mr. Jones was unhurt, but for a few minutes, but after coming to his senses seemed none the worse for the exciting experience, except for a minor bruise.

With the help of some ranchers the car was righted and put in running order after an hour's work, the principal injuries being to the tonneau, the heavy engine suffering only minor injuries.

FACTORY TO OPEN.

The American Beet Sugar Company will begin the best harvest for the season on Monday. At that time plowing of beets will begin on the Patterson ranch and other large ranches. The factory will begin to haul and trainloads of beets to the factory from Arnold and the Nauman dumps. By the end of next week the American Beet Sugar Company will be grinding 100 tons of beets per day.

The run this season will be a good one, although not as good as last season. There are 12,000 acres in this locality devoted to beets, and a good yield is reported from many fields. The factory will run night and day for more than two months.

WILL HAVE ROAD.

A committee of Oxnard citizens has received a promise of the Board of Supervisors of the county to build a new air line road from the foot of the Conejo grade into Oxnard. This cut-off will save three miles for the through automobile run from Los Angeles to Santa Barbara, and will give a stretch of eleven miles of the best road of high grade in the county.

The judges of the time to be held in this county by a county commission are three months, to be held at Oxnard. The Board of Supervisors will prepare the specifications for a general bond election in the county for the sum of a half million dollars for highways, bridges and paving.

OXNARD BRIEFS.

F. F. Ellis, who has acted as architect for the American Beet Sugar Company at this place for six years, has been appointed manager of the new sugar factory under construction at Corcoran, and has accepted the position.

A committee of citizens is circulating a petition among the property owners of Oxnard at the request of the City Trustees in the interest of doing \$25,000 worth of work in the way of paving business streets of Oxnard.

Great tuna catches at Coronado. Venice villas, reasonable rates.

WEDDING SURPRISE.

HEMET, Aug. 9.—Hemet has been treated to a sensation yesterday by the announcement of the marriage of Miss Elizabeth Burch and William Craig, both guests of Hotel Hemet.

Mr. Craig came to Hemet a short time ago, and from the first meeting with Miss Burch his wooing has been ardent. Wednesday afternoon Mr. and Mrs. D. Arnold of Hotel Hemet accompanied Miss Burch and Mr. Craig and Master Burch Coffey to Riverbank, where they were married at the Presbyterian parsonage by Rev. Egan. The bride wore a beautiful suit of light-colored silk, with hat, gloves and shoes to match. A wedding dinner was served at the Glenwood hotel here and the party left for Hemet.

SOUNDS LIKE FAIRY TALE.

Cattleman Leans Forward and His Ribs Are Fractured by Pencil in Pocket.

[SPECIAL CORRESPONDENCE.] SANTA PAULA, Aug. 9.—John W. Gibson, a wealthy cattleman of Santa Paula Canon, is the victim of one of the most peculiar accidents on record in this section. He was seriously injured by lead pencils.

Wednesday evening he was sitting in his easy chair reading a newspaper. He dropped part of it, and leaned over quickly to pick it up. Two of his ribs were fractured by pencils which were in his vest pocket.

WASH MONEY IN SUIT.

So Says Witness in Probate Case in Santa Ana—Speedy Cystel Pays Fine.

SANTA ANA, Aug. 9.—"Mrs. Schubert earned the money to raise the mortgage by taking in washing," declared Mrs. Sarah Hyle when put on the witness stand today in the August Schubert estate contest.

The fight for the estate, which consists of a walnut grove at Orange worth \$2000, is between C. F. Schubert, the widow of the testator, and the children of Mrs. Schubert, who by her will are left the walnut grove. Schubert declares he furnished the money to buy the grove and that he sent money to the woman when she was in Germany that she might come to America to marry him and to bring her children with her. Mrs. Hyle testified today that she held a mortgage on the place for eight or nine years and that it was paid off by Mrs. Schubert through her earnings from taking in washing.

SPEDY MAN PAYS FINE.

Albert Gerome came down from Los Angeles today on a speedy motorcycle and decided to show Santa Ana what real speed looked like. So he turned his big machine loose on Fourth street and ran the length of it several times. A number of women were badly frightened by the roar of the motor, and the cyclist was less than a second from being arrested.

He was stopped by a patrolman, and the cyclist was fined \$25 for exceeding the speed limit. Willson fined Gerome \$5, which the motorcyclist paid, leaving him \$20 cents in his pocket. The man went loudly as he turned over the coin to the city he had chosen to entertain.

NOT ON THIRTEENTH.

"Not on the 13th, your honor, please," said Attorney J. Howard Bell before Judge Denmore of Riverside, sitting for Judge West here. "I am a little superstitious, and I don't like to have my client plead on the 13th."

The judge set the time to plead for August 14 at Bell's request. The client is George Williams, accused of robbing Isiah Baker, an old man at Fairview.

VENICE VILLAS, REASONABLE RATES.

SANTA PAULA.

SANTA PAULA, Aug. 9.—The Ventura County Power Company is rushing the work on the gas main between this place and Ventura. The mains are completed to within six miles of Santa Paula, and two crews of men are at work here. The next few months will see the three principal cities of the county supplied with gas for light and fuel, and the farmers along the country roads will also be supplied with gas and electricity.

At a meeting of the stockholders of the Sulphur Mountain Springs Company, five new directors were elected and the board reorganized as follows: H. E. Bassett, president and general manager; F. E. Davis, vice-president; Nellie M. Bassett, secretary; H. F. Hartwell and E. A. Bassett. The company, composed of Los Angeles, Pasadena and Santa Paula capitalists, is having a very prosperous season.

VENICE VILLAS ARE CONVENIENT.

Not a day passes but what I have men come to me in a dejected condition from neglect and improper treatment. It seems to me that any man in a dejected state ought to know that there is trouble in his system, and that he ought to get proper medical attention. Do they know it or neglect it, or is it because many unprincipled men in my profession are taking advantage of them, and when they are afflicted with some trivial disease make them believe they have very dangerous ailments?

Is It the Reason?

I think it must be, and I want to say to all men who are suffering from VARICOCELE, HEMORRHOIDS, BLOOD POISON, NERVOUS DEBILITY, ETC., that you can come to me with confidence. I will give you nothing but a straightforward and honest statement of your troubles and will not exaggerate your case one particle.

I do now and always have conducted my business on a straight "golden rule" plan and I have yet to hear of one of my patients who will not back me up on every word of this. I am like a first-class mechanic. Who ever heard of one of them misrepresenting or converting to anything underhanded in their work? They are too proud of their skill and they are always striving to make things better than they ever made before; their heart and soul are in their work; and thus it is with me.

CITY DADS TO GET NO PAY.

POINT ON SALARIES DECIDED IN SAN DIEGO.

Decision is Also Received to the Effect That the Municipal Bond Issue is Valid and that the Checks from the Purchasing Companies Should Not Be Returned.

SAN DIEGO, Aug. 9.—That the municipal bond issue is valid and that therefore the checks deposited by the purchasing companies should not be returned by the City Clerk, and that the present Councilmen are not entitled to salaries during the consideration of the question raised by former City Attorney W. R. Andrews, who prepared the proceedings, and who brought an injunction restraining the City Clerk from complying with the demands of the bond buyers for the return of the checks, after attorneys for the bond buyers had taken up the proposition on the grounds of irregularity in the proceedings, City Attorney Andrews held that the question of legality should have been submitted to a disinterested party.

The City Councilmen have heretofore refused to accept the proposition, but at the present administration an attempt was made to secure \$1000 per year, the ordinance making that provision having been adopted after the election of the new Councilmen. The City Auditor, however, refused to draw warrants for the month's wages, and the Councilmen then brought mandamus proceedings to compel payment. The City Attorney filed a demurrer to the complaint, which Judge Bledsoe sustains.

LAYS TRACK AT NIGHT.

The slumbers of many La Jolla people were disturbed last night by a crew of forty or fifty men making the noise incident to the laying of railroad ties, the work being kept up until early dawn.

It was the crew of the San Diego and Los Angeles Beach Railroad, which has taken advantage of the darkness to take possession of some disputed land which was wanted for a right of way and which has been in controversy for several months. The railroad wants the right of way in order to make a loop at the La Jolla terminus of its line. Five or six blocks of the loop track was laid on July Fourth, in order to prevent the getting out of an injunction. The right of way desired was covered with ties and rails by daylight this morning.

BAY CITY DRIFT.

The City Auditing Committee has adopted a resolution to the effect that the tent of each month shall be paid for all city employees, except charter officers. In the past the employees have been paid the first day of the month.

Tenants of the Keating block, one of the largest in the city, have joined in a petition to the City Council to adopt an ordinance regulating the operation of elevators, they having been unable to obtain a satisfactory service in the Keating-block conveyance, and believing that the elevator is dangerous.

Big catches of tuna are being made off Coronado. The claim is made that even Catalina records are being broken.

Howard M. Cherry, for ten years a member of the board of Supervisors, has been elected County Auditor, taking the place formerly filled by the late Eugene E. Shaffer.

J. H. Wood has bought \$2500 worth of Sixth street between 1st and 2nd streets, upon which he will erect a two-story brick building, costing \$20,000. The price of the lot was \$800.

The City Council has decided to remove to the Los Penasquitos Creek near Del Mar, the city hall and city offices, and to construct a concrete bridge at Harrison avenue.

Owens River View.

Pictures showing the source of Los Angeles future water supply will be given FREE as a special feature of the next issue of THE BIGGEST PAPER IN THE WORLD. FIVE CENTS.

"Easy Money."

Ten thousand dollars will be distributed by The Times at its office, commencing Sunday. No questions; no coupons; no work. Full details will appear in a full-page advertisement Sunday.

MEN'S DISEASES

As medical science advances, the more apparent becomes the folly of employing harsh and dangerous measures in attempting to cure the ailments of men. Drastic dosing and useless cutting have done irreparable injury in thousands of cases. I cure all special diseases of men promptly and permanently, and by painless methods that cannot possibly produce undesirable results.

MY TREATMENT FOR WEAKNESS

Functional derangement, such as premature loss of power, etc., is neither a "weakness" nor a disease. It is a symptom of prostatic disorder. To stimulate activity by the use of powerful tonics is an easy matter, but such results are merely temporary drug effects. Most doctors treat "weakness" in this manner because they do not know how to cure the real cause of the derangement. I am the only physician employing scientific and successful methods. I use no tonics at all. My treatment is a local one entirely, and corrects every abnormal condition of that vital center, the prostate gland. My cures are real cures, and are permanent.

Specific Blood Poison

No dangerous minerals to drive the virus to the interior, but harmless blood-cleansing remedies that remove the last poisonous taint.

EXAMINATION FREE

I offer not only FREE Consultation and Advice, but of every case that comes to me I will make a careful examination and diagnosis without charge. If you should neglect this opportunity to get expert opinion about your trouble, you cannot call, write for Diagnosis Chart. My office are open all day from 9 a.m. to 9 p.m. and Sundays from 9 to 12.
